

WHEEL PAINT

MATERIAL

HARDNESS

CAR-REP® WHEEL PAINTS customize or dress up worn out wheels with highly brilliant metallic finish. Quick drying time and a durable and high gloss finish. This advanced, track-tested acrylic formula protects against brake dust, chemicals, cleaning solvents, heat, and chipping.

Car-Rep® wheel paints are made of acrylic binders. They offer a very short drying time, glossy and wear resistant surface than the traditional spray paints. The coverage of Car-Rep® acrylic spray paint is extremely high. The coating is very hard and gives an excellent protection for wear and stone chips.

BINDER:
Acrylic, Solvent based

DEGREE OF GLOSS (DIN 67530 60 °):
matt 0-25 gloss units
satin 35-50 gloss units
