

ACRYLCOMP®

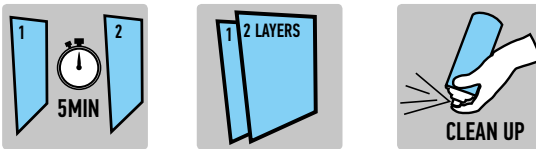

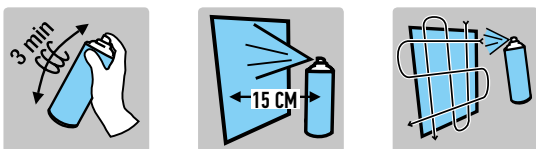

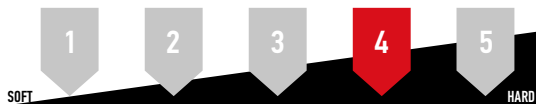

HIGH COVERAGE **WIDE SPRAY** **QUICK DRYING** **NO RUN DOWN**

MATERIAL

HARDNESS

CAR-REP® ACRYLCOMP® is based on patented technology. The volume of 400ml of ACRYLcomp® creates an incredible coverage of about 3m²*. Car-Rep® ACRYLcomp®-technology includes also other advantages since the volume of binders is 25% higher compared to regular spray paints. The coverage is higher and only one layer is normally sufficient to coat the object. The paint does not run down. Car-Rep® ACRYLcomp® contains 20% less propellants than conventional spray paints. Its patented technology combined with turbine-valve, mixes effectively the paint to the propellant, just like in a professional spray gun. Thanks to ACRYLcomp® technology you can paint the objects from a distance of about 10 - 15 cm instead of the normal distance of about 30 cm. Spray pattern difference is clearly audible and visible. Therefore the paint will spread much less outside the area to be painted.

* primed color matching metal surface

BINDER:
Acrylic, Solvent based

DEGREE OF GLOSS (DIN 67530 60 °):
matt 0-25 gloss units
satin 35-50 gloss units
gloss 80-100 gloss units

HEAT RESISTANCE: 120 °C
STORAGE STABILITY: 60 months

EU VOC-CONTENT: VOC 614,45 g/L

RECOAT: always, 5 minutes in between layers

SIZE: 500 ml

SALES QTY: 6 pcs

Information valid at 20°C, relative air humidity 20% - 70%
